BASICS Summary 2012-2013

Issued Group
Total students issued: 426
Referred from Dean of Students Office (DOSO): 168
Referred from Housing: 258

Issued Individual
Total students issued: 93
Referred from Dean of Students Office (DOSO): 46
Referred from Housing: 47

Referred from DOSO: 168
Referred from Housing: 258
Completed Group
Total students completed: 479
Completed at Tellurian: 173
Completed at Connections: 306

Completed Individual
Total students completed: 70
Completed at Tellurian: 15
Completed at Connections: 55

Alcohol Recidivism
Since August 2011, 772 students completed Group BASICS. Of those 772 students, only 37 students have been referred to Individual BASICS for a subsequent violation of the university alcohol policies. Other important notes regarding recidivism:

- After completing Group BASICS, 43 students (5.6%) were subsequently found responsible for alcohol policy violations and assigned to either Individual BASICS (36) or e-Checkup to Go with a written reflection (7).
- Nine of the 43 incidents involved the student being taken to Detox (5) or the hospital (1) for incapacitation, taken to jail (2), or an OWI (1).
- Four students who completed Group BASICS were ultimately suspended for policy violations (alcohol involved in most of these cases); two of the students also completed Individual BASICS prior to the suspension.
Group BASICS Demographics and Information

Number of groups held: 69
Average number of students per group: 8
Number of participants completing evaluation: 461 (all students not completing the full pre- or post-test were dropped from the analysis)

Gender: 28.5% female, 71.5% male
Race/ethnicity: 87.2% White, 3.42% Hispanic/Latino, 1.7% Black, 3% Asian, .85% Native American, 0.85% Indian
Year in school: 65.65% freshmen, 22.83% sophomores, 9.13% juniors, 2.39% seniors,
Average age: 19 years old (Based on Connections Counseling data)

BASICS Knowledge 2012-2013

- Scores range from 0 – 11 (and denote the number of correct answers)
- N=463 students
- Paired t-tests indicate significant differences between pre- and post-test knowledge of alcohol for 2012-2013 (p<.05).
Scores range from 1 (strongly disagree) to 5 (strongly agree)

N=463 students

Paired t-tests indicate significant differences between pre- and post-assessment attitudes (p<.05) on eight items

Students indicate a greater level of contemplation regarding their alcohol use.

Scores range from 1 (strongly agree) to 4 (strongly disagree)

N=463 students

Paired t-tests indicate significant differences between pre- and post-assessment attitudes (p<.05) for four of eight items

Students indicate greater agreement with the statements on the left
BASICS Evaluation Data 2012-2013 for Connections Counseling
N=303

Overall rating of the program

- Poor: 0.33%
- Fair: 5.94%
- Good: 37.62%
- Excellent: 56.11%

This program will help me reduce risk

- Probably not: 3%
- Maybe: 31%
- Definitely: 66%

Likelihood of changing an aspect of alcohol related behavior

- Probably not: 9%
- Maybe: 42%
- Definitely: 49%

I would recommend BASICS to all first year students

- Do not recommend: 9%
- Might recommend: 24%
- Strongly recommend: 15%
- Very strongly recommend: 52%
